Revisions:

We would also like to propose two revisions to the presented slide as follows:

1. the figures 18.2% and 54.0 % at the last columns for China and Canada should be swapped
2. the principal author for reference number 6 is "Zhang" instead of "Chan".

Updated slide number 34 based on figures released by WHO on 15 Aug 03 summarising SARS cases till 7 Aug 03

WHO has just released update figures on 15 Aug 03 under "Summary table of SARS cases by country, 1 November 2002 - 7 August 2003" (Accessed Aug 16, 2003 at http://www.who.int/csr/sars/country/2003_08_15/en/.) from which update figures can be inserted into columns 1, 2, 3 and 6 of slide 34. The changes together with the two revisions mentioned above are shown in the attached slide "Revised international comparison".

Revised international comparison.

Thank you.

Dear [REDACTED]

I refer to powerpoint slide number 34 of the presentation on "Data Analysis on SARS Clinical Management" made by [REDACTED] on 16 August 2003. Copy of the slide is reproduced below.
(Embedded image moved to file: pic00041.pcx)

To facilitate our preparation of the SARS Review Report, I should be grateful if [REDACTED] would provide details regarding the references numbered 1-9 at the bottom of the slide, including names of authors, titles of articles, and names of journals and year of publications where relevant (ie numbered 2,4,6,7).

In view of the tight time schedule, grateful for your reply by Friday, 22 August. Thanks.

[REDACTED]

Ends

International Comparison of CFRs in Relation to Case Mix

	No of Cases ¹	CFR ¹	Median Age ¹	Co-morbidities (%)	LDH \geq 230 (%)	HCW (%) ¹
Canada	251	17	49 (1-98)	-	-	43
China	5327	7	-	13 ²	46.5 ⁴ 18 ² 26.3 ⁵	19
Hong Kong	1755	17	40 (0-100)	17.8 ³	67.8 ⁶	22 (HA staff: 19)
Singapore	238	14	35 (1-90)	-	-	41
Taiwan	665	27	46 (2-79)	-	-	13
USA	33	0	36 (0-83)	-	-	3
Vietnam	63	8	43(20-76)	-	-	57

1. WHO (released on 15 Aug 03)

2. Xiao et al, 78 patients

5. Zhao et al, 190 patients

3. n = 1552

6. n = 1471

4. Zhang et al, 260 patients
